Lexington County Capital Project Sales Tax (CPST) Program Prioritized Projects for the Town of Pine Ridge Project # 1

1. Project Description, Sponsoring Entity/Entities, and Official Statement(s) of Ongoing Support

- A. Resurface Fish Hatchery Road (S32-73) starting from U.S. Highway 321 and end at Friendship Court. With the influx of people moving into this area coupled with the completion of interstate I-77 at the intersection of Fish Hatchery and highway 321, the amount of traffic on Fish Hatchery has more than doubled as individuals from surrounding areas and companies transporting goods use these roads for quick access to other highways and interstates. Other than inconsistent patch work, Fish Hatchery Road has not been attended to in over 25 years.

This project would serve all residents within the Town of Pine Ridge, as well as parents dropping/picking-up kids from our schools and commuters traveling through town to and from I-26 and I-77.

- B. The road in question is currently owned by the State of South Carolina, this would not change the ownership of the roads.
- C. This project is eligible for capital project sales tax funding under subparagraph (a): highways, roads, streets, bridges, and public parking garages and related facilities.
- D. This is currently a county-maintained road and we do not anticipate any changes pertaining to the associated financial obligations; however, we will work to obtain a co-sponsor letter concerning this matter.
- E. This project will not generate revenue.

2. Site Planning and Project Implementation

- A. Alliance is working with the town to provide all needed plat, tax map or preliminary engineered drawings. No easements and/or encroachments permits will be required for a resurfacing project.
- B. Alliance is working with the town to provide the topographical survey and all associated costs.
- C. Alliance will work with the town to obtain this information as we get closer to the design phase of the project.

- D. Alliance will work with the town to obtain any needed soil and environmental testing prior to the project design.
- E. This property (road) is not owned by the town, but we are working with Alliance to obtain a letter of support for project completion.
- F. Pine Ridge zoning regulations would not be an obstacle. Easements should not be needed for a road resurfacing. There are no existing covenants or other restrictions as the road is already in existence.
- G. Alliance is working with the town to obtain this tax map information.

3. Construction and Budgeting

- A. Alliance will work with the town to provide a detailed cost opinion and schedule for the project.
- B. Alliance will work with the town to provide a detailed cost opinion and schedule for the project.
- C. The proposed project does not include any facilities.
- D. Alliance will work with the town to provide a detailed cost opinion and schedule for the project.
- E. There are no furniture needs associated with this project.
- F. This project does not require a structure.
- G. Alliance will work with the town to provide a detailed cost opinion and schedule for the project.
